

Katadyn Product Line 2004

KATADYN WATER FILTERS

A crystal-clear stream or lake usually contains microorganisms that can make you sick. Water contaminants like protozoa, bacteria and viruses can cause serious illness. Therefore optimize your travel preparation and use a portable drinking water system from Katadyn. We separated our water filters into the three different categories Endurance, Backcountry und Ultralight. This makes it easier for you to choose the right Katadyn product to meet your needs.

ENDURANCE SERIES

Expeditions, camps and professional use.

Ultimate reliability and durability. Perfect for 1 – 4 persons. Also for extremely turbid water. Very high filter capacity and product life.

BACKCOUNTRY SERIES

Camping, trekking and backpacking. Great for all-around use.

Perfect for 1 – 2 persons. For clear and slightly turbid water. From huts to camp grounds.

ULTRALIGHT SERIES

Weekend trips, day excursions and travel.

Light solo use. Perfect for one person. For clear water. In the outdoors or at hotels.

Katadyn Bottle – the convenient drinking bottle with a water filter

Technology: Virustat cartridge with penta iodide (I₅) iodine and activated carbon granulate
Output: approx. 0.2 l/min
Cartridge Capacity: Up to 200 fillings
Bottle Capacity: 0.6 l
Weight: approx. 210 g (empty)
Size: 29 x Ø 7.5 cm
Article No. 8011684

The Katadyn Bottle is a practical drinking bottle with an integrated water filter. Prepare clean drinking water anytime and everywhere: Just fill the bottle and drink – without pumping. Perfect for smaller amounts (e. g. for hiking, travelling or sports). The 3-phase water filter eliminates bacteria, protozoa, viruses and improves taste. The only EPA-registered Purifier.

Katadyn Mini Filter – the most compact water filter

Technology: 0.2 Micron ceramic depth filter
Output: approx. 0.5 l/min
Cartridge Capacity: Up to 7'000 l depending on water quality
Weight: approx. 210 g
Size: 8 x 18 x 5 cm
Includes: Prefilter and carry bag
Article No. 2036000

The Katadyn Mini is the lightest and most compact filter on the market. Its small size fits in a coat pocket or waist pack and is ideal for travel, business trips and day hiking. Exclusive silver impregnated ceramic filter removes bacteria and protozoa.

Katadyn Hiker Filter – the convenient and effective microfilter

Technology: AntiClog™ Technology with 0.3 micron glassfiber and activated carbon granulate
Output: approx. 1 l/min
Cartridge Capacity: Up to 750 l depending on water quality
Weight: approx. 310 g
Size: 7.6 x 16.5 x 6.1 cm
Includes: Prefilter, bottle adapter and carry bag
Article No. 8013829

The Katadyn Hiker is the best selling microfilter in the US Outdoor Market. Lightweight and easy to use design is the best choice for all around use. Unique, pleated cartridge design provides fast and easy pumping. Convenient and handy for 1 – 2 persons (e. g. while hiking or trekking).

Katadyn Pocket Filter – the only filter with a lifetime warranty

Technology: 0.2 micron ceramic depth filter
Output: approx. 1 l/min
Cartridge Capacity: up to 50'000 l depending on water quality
Weight: approx. 550 g
Size: 24 x Ø 6 cm
Includes: Prefilter, bottle clip and carry bag
Article No. 2010000

The classic. This robust water filter made of heavy duty materials is ideal for long lasting continuous use even under extreme circumstances. The silver impregnated ceramic element is effective against bacteria and protozoa. The Katadyn Pocket is the only water filter with a 20 year warranty.

Katadyn Combi Filter – the multifunctional microfilter

Technology: 0.2 micron ceramic depth filter and activated carbon
Output: approx. 1 l/min
Cartridge Capacity: Ceramic: up to 50'000 l depending on water quality, activated carbon: up to 400 l (2 fillings)
Weight: approx. 580 g
Size: 27 x Ø 6 cm
Includes: Prefilter, bottle adaptor and carry bag
Article No. 2040000

The Katadyn Combi combines a silver impregnated ceramic element and a refillable, activated carbon cartridge. It is effective against bacteria and protozoa and also reduces chemicals and bad taste. With the optional "PLUS" the Combi can be connected to a water faucet for multifunctional use in campers, cottages or boats.

Katadyn Camp Filter – the practical water filter

Technology: 0.2 micron ceramic depth filter
Output: approx. 5 l/h
Cartridge Capacity: up to 20'000 l depending on water quality
Weight: approx. 620 g
Size: 19 x Ø 10 cm
Hose Length: 2 m
Article No. 8013637

This gravity filter is practical and versatile in application. The Katadyn Camp model comprises a siphon filter with silver impregnated ceramic and a 10 litre water bag. This simple system allows filtration without pumping.

Katadyn Siphon Filter – the simplest water filter

Technology: 0.2 micron ceramic depth filter
Output: approx. 5 litres/hour
Cartridge Capacity: Up to 20,000 litres depending on water quality
Weight: approx. 440 g
Size: 20 cm x Ø 6.5 cm
Hose Length: 2 m
Article No. 1120070

A lightweight filter which can be used with any water container to make a gravity system. Ideal for camping, base camp and emergency use. Also replacement element for Katadyn Camp Filter.

Katadyn Expedition Filter – the indestructible high performance filter

Technology: 0.2 micron ceramic depth filter
Output: approx. 4 l/min
Cartridge Capacity: up to 100'000 l depending on water quality
Weight: approx. 5.2 kg
Size: 58 x 20 cm
Includes: Prefilter and carry bag
Article No. 2050000

The Katadyn Expedition is ideal for large groups and relief organizations. It is indestructible and easy to use. The best choice for expeditions, River Raftings, Camps, etc.

Katadyn Drip Filter – water container with built in ceramic filters

Technology: 0.2 micron ceramic depth filter
Output: approx. 4 l/h
Cartridge Capacity: Up to 150'000 l depending on water quality
Weight: approx. 3.3 kg
Size: 25 x 45 cm
Article No. 2110070 (Ceradyn)
 2110080 (Gravidyn)

Free-standing gravity filter with a 10 litre water container for large quantities of water. Filters without effort. Also available with three combined ceramic & activated carbon filter.

KATADYN ACCESSORIES

Katadyn Carbon Cartridge

Weight: approx. 59 g
Dimensions: 5.0 cm x Ø 6.0 cm
Article No. 8013450

This bottle adapter with activated carbon reduces chemicals and improves taste. It connects to all popular water bottles and is lightweight, durable and easy to use.

Katadyn Plus

Output: 0.5 l/minute at 3 bar
Weight: approx. 240 g
Article No. 20730

Accessory to the Katadyn Combi enables direct connection to the water faucet and thus makes the Combi to the only outdoor and indoor water filter.

KATADYN MICROPUR WATER TREATMENT

The World Health Organization (WHO) attributes 80% of all travel diseases to contaminated drinking water. Avoid tap water and ice cubes anytime the water quality is uncertain – even bottled water can be questionable when available. It is advisable to use always Katadyn Micropur products as a prophylaxis. These products can be used by themselves or in combination with a Katadyn filter.

Katadyn Micropur Classic - simple and safe

Impact: Silver ions inactivate bacteria within 2 hours and preserve the water for up to 6 months.

Form: Tablets, Powder or Liquid

Use in clear water. Ideal for vacations and travelling. Is ecologically friendly and keeps water free from germs, algae and odours.

Product	Article No.	
Micropur Classic MC1T	50101	Tablets for 100 l = 100 x 1l
Micropur Classic MC 10T	50201	Tablets for 400 l = 40 x 10 l
Micropur Classic MC 100P	52001	Powder 10 g for 1'000 l = 10 x 100 l
Micropur Classic MC 10'000P	52801	Powder 100 g for 10'000 l
Micropur Classic MC 50'000P	5310	Powder 500 g for 50'000 l
Micropur Classic MC 1'000F	54000	Liquid 100 ml for 1'000 l

Katadyn Micropur Forte - fast and effective

Impact: Silver ions combined with chlorine eliminate bacteria and viruses within 30 minutes and Giardia within 2 hours. Preserves water for up to 6 months.

Form: Tablets, Powder or Liquid

Fast and effective water disinfection for clear water. Essential item for any traveller to avoid contaminated water (e.g. brushing teeth, drinking water).

Product	Article No.	
Micropur Forte MF 1T in 6 Box	56101	Tablets for 100 l = 100x 1l
Micropur Forte MF 10'000P	8013702	Powder 100 g for 10'000 l
Micropur Forte MF 50'000P	8013703	Powder 500 g for 50'000 l
Micropur Forte MF 100F	8013700	Liquid 10 ml for 100 l
Micropur Forte MF 1'000F	56000	Liquid 100 ml for 1'000 l

Katadyn Micropur Antichlorine - restores the natural taste of drinking water

Impact: Sodium thiosulphate eliminates the taste of chlorine (transforms chlorine into table salt = NaCl) within 3 minutes

Form: Liquid

Neutralises chlorine and restores the natural taste of water. Use as final step of Micropur Forte to improve taste. Also suitable for preparing drinks with tap water.

Article No. 8013705

KATADYN MARINE PRODUCTS

Katadyn is a leading manufacturer of efficient and convenient water desalination systems. On your voyage, fresh water is one of the few things you will absolutely need every single day. The freedom to make your own fresh water anytime will make a significant improvement to your cruising lifestyle. Katadyn marine products – compact, simple and durable – will satisfy the most demanding mariners.

There are 2 unique product classes that use our innovative Energy Recovery System:

1. Manual Survivor desalinators for emergency use
2. PowerSurvivors for daily water needs aboard

Katadyn Survivor 06 - the world's smallest desalinator

Technology: Reverse osmosis
Salt rejection: 98.4 % on average (95.3 % min.)
Flow: 0.89 litre/hour ± 15 %
Average pump rate: 40 strokes/minute
Weight: approx. 1.13 kg
Dimensions: 12.7 x 20.3 x 6.4 cm
Article No. 8013418

- Hand-operated desalinator which is extra-ordinary compact in size
- Recommended for emergency liferafts and individual survival kits

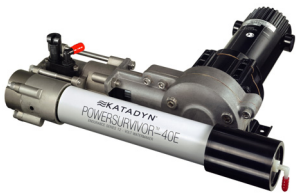

Katadyn Survivor 35 - the most powerful desalinator for emergencies

Technology: Reverse osmosis
Salt rejection: 98.4 % on average (95.3 % min.)
Flow: 4.5 litres/hour ± 15 %
Average pump rate: 30 strokes/minute
Weight: approx. 3.17 kg
Dimensions: 14.0 x 55.9 x 8.9 cm
Article No. 8013433

- Hand-operated desalinator widely used by international military forces, voyagers, sea kayakers and adventures
- Survival tool and extra source of fresh water without need of auxiliary power

Katadyn PowerSurvivor 40E - the world's smallest electrical desalinator

Technology: Reverse osmosis
Salt rejection: 98.4 % on average (96 % min.)
Flow: 5.7 litres/hour ± 15 %
Power Requirements:
 12 volts DC / 4 amps
 24 volts DC / 3 amps
Weight: approx. 11.3 kg
Dimensions: 17.2 x 41.9 x 39.4 cm
Article No. 8013438

- Compact desalinator which can be operated both electrically and manually (not dependent on electricity in an emergency)
- Extremely energy efficient – no watermaker draws so few amps

Katadyn PowerSurvivor 80E - one of the most efficient electric desalinators

Technology: Reverse osmosis
Salt rejection: 98.4 % on average (96 % min.)
Flow: 12.9 litres/hour \pm 15 %
Power Requirements:
12 volts DC / 8 amps
24 volts DC / 5 amps
Weight: approx. 15.4 kg (modular),
approx. 22.2 kg (enclosed)
Dimensions:
15.2 x 40.6 x 35.5 cm (modular),
23.6 x 52.8 x 43.2 cm (enclosed)
Article No. 8013441

- Available in two variations: modular and enclosed
- Extraordinarily compact, especially with respect to its output
- Covers the entire daily water requirement of 6 people

Katadyn PowerSurvivor 160E - Katadyn's top performing desalinator

Technology: Reverse osmosis
Salt rejection: 98.4 % on average (96 % min.)
Flow: 25.4 litres/hour \pm 15 %
Power Requirements:
12 volts DC / 18 amps
24 volts DC / 12 amps
Weight: approx. 16.8 kg
Dimensions: 15.2 x 40.6 x 35.6 cm
Article No. 8013442

- Great choice for larger crews up to 12 people or larger boats and yachts
- Covers all water requirements on board in an elegant and intelligent way
